

AHMAD AL-SMADI

Full-Stack Web Developer | Computer Science

0777144399 | ahmadalsmadi2004@gmail.com | Amman, Jordan | <https://github.com/ahmadony> | www.linkedin.com/in/ahmadalsmadi-dev

PROFESSIONAL SUMMARY

Computer Science graduate from World Islamic Sciences and Education University (WISE) with a basic knowledge of full-stack web development. Proficient in building web applications using ASP.NET Core MVC, HTML, CSS, JavaScript, C#, and SQL Server. Actively expanding skills into MERN stack development. Completed field training at Clever Mind POB, delivering multiple front-end projects. Passionate about clean code, best practices, and real-world development environments.

EDUCATION

World Islamic Sciences and Education University (WISE)

2022 – 2026

Bachelor of Science in Computer Science | Amman, Jordan | Graduated 2026

- GPA: 72.2 / 100

TECHNICAL SKILLS

- Languages: JavaScript, C#, Java, C++, Python, HTML, CSS
- Frameworks & Libraries: ASP.NET Core MVC, Entity Framework Core, React and Node js (learning)
- Databases: SQL Server, MySQL
- Tools & Platforms: Git, GitHub, Visual Studio, VS Code
- Concepts: OOP, DOM Manipulation, REST APIs, MVC Architecture, Responsive Design

PROJECTS

LapAdvisor – Laptop Recommendation & E-Commerce System

2025 – 2026

Graduation Project | ASP.NET Core MVC, Entity Framework Core, SQL Server, HTML, CSS, JavaScript

- Built a full-stack web application to help users choose suitable laptops based on their needs
- Implemented filtering, comparison, wishlist management, recommendation logic, and admin panel
- Collaborated with a 2-person team under academic supervision
- Repository: <https://github.com/ahmadony/LapAdvisor>

Field Training Front-End Projects

2026

HTML, CSS, JavaScript | Clever Mind POB

- Built 4 cumulative projects covering scroll effects, image sliders, CSS animations, audio players
- Implemented hamburger navigation, sign-up/login modals, and neon UI effects
- Maintained clean file structure with external CSS/JS files and shared navbar

Weather App

2026

HTML, CSS, JavaScript | Fetch API, Async/Await | OpenWeatherMap API

- Built a weather web app that fetches real-time data from OpenWeatherMap API using Fetch API with async/await
- Displays temperature, humidity, weather description, and dynamic day/night emojis based on sunrise/sunset
- Implemented error handling for invalid cities and failed API requests
- Repository: <https://github.com/ahmadony/weather-app>

EXPERIENCE & COURSES

Field Training – Front-End Web Development

2026

Clever Mind POB | Amman, Jordan | Supervised by Ms. Dana Abu-Soufa

- Completed structured front-end training building real-world web projects
- Applied JavaScript DOM manipulation, event handling, and UI component development

Self-Study – JavaScript & MERN Stack

2026 – Present

Bro Code JavaScript Course (YouTube)

- Studied JavaScript fundamentals, OOP, classes, and asynchronous programming
- Built and debugged multiple projects: stopwatch, calculator, password generator, weather app

C# & ASP.NET Core Development Courses

2025

IT Legend (Ali Shahin) – C# Basics, OOP, Advanced, ASP.NET Core MVC

- Completed structured courses in C# and ASP.NET Core MVC backend development
- Supplemented learning with Udemy C# Basics course

SOFT SKILLS

- Time Management | Problem Solving | Teamwork | Communication

LANGUAGES

- Arabic: Native
- English: Good
